

Your personalized invoice

How does the fee work ?

According to the provisions of Circular 3/2020 of January 15, 2020, Order TED/371/2021 of April 19 and the CNMC Resolution of March 18, the new access rate are introduced, which will be applied from June 1, 2021.

About us

Lumisa Energies is an electricity marketer that operates in the Spanish Electricity Market founded in 2012 by entrepreneurs with a vision of using technology and data to offer affordable energy to homes and businesses.

National presence

We are present throughout the Iberian Peninsula and our intention is to continue growing and cover all of Spain.

Technology

From Lumisa we develop the technology that helps us turn our ideas into reality.

Proximity

We stay connected with people through social networks, our main channel.

What services do we offer?

- Monthly sending of the electricity bill by email or postal mail
- Customer area to consult contracts, invoices or to self-manage any procedure
- Claim on estimated readings
- Technical advice on installation incidents
- Change bank account, holder and power optimization

For more information consult our [General Contracting Conditions](#).

*Amounts with taxes included. Promotional discount applied to the final price. Check the legal bases on our website lumisa.es/politica-precios/en. We have estimated the amount that you will pay monthly with Lumisa Energías, S.L. with your recent consumption data. These amounts may vary depending on your energy consumption and are merely informative, they do not constitute a contractual commitment. Electricity prices have been updated with dated 06/01/2021 transferring the variations regulated in Circular 3/2020 (BOE of January 24, 2020), Order TED/371/2021 (BOE of April 22, 2021) and the CNMC Resolution of 18 of March (BOE of March 23, 2021).
